CHETLA ABHILASH

+918074714029 | chabhilash5@gmail.com | LinkedIn

OBJECTIVE

Graduate Software Engineer (2025) with strong foundations in Java, Python, SQL, and Web Technologies (HTML, CSS, JavaScript). Experienced in building database-driven applications, implementing OOP concepts, and developing backend logic using clean and maintainable code. Quick learner with interest in enterprise application development, integration technologies, and willing to commit to a long-term service role.

EDUCATION

Bachelor of Technology (CSE-Artificial Intelligence & Machine Learning)
CMR Institute of Technology | Hyderabad
2021-2025 | CGPA:8.20/10

TECHNICAL SKILLS:

- **Programming & Automation:** Python , Java
- **Front-End Technologies:** HTML5, CSS3, JavaScript, ReactJs
- **Databases:** MySQL
- **Backend & APIs:** Django, REST API Development, MVT Architecture, CRUD Operations
- **Tools & Platforms:** Git, GitHub, Linux (basic commands & system operations)
- **Additional Exposure:** Basics of Machine Learning, NLP (academic)

PROJECTS

1. Hospital Management System
Tools & Technologies: Python, MySQL

- Built a Hospital Management System using Python and MySQL to manage patient and doctor records.
- Implemented CRUD operations and database connectivity for efficient hospital data management.
- Applied OOP concepts in Python to develop modular and maintainable system components.
- Designed modules for patient registration, appointment scheduling, and doctor management.
- Developed a scalable, database-driven backend application similar to SaaS-based systems for managing patients, appointments, and billing.

2.AI-Driven Social Misinformation Detection System

- **Tools & Technologies:** Python, Pandas, NumPy, Scikit-learn, TF-IDF, Machine Learning, Git, GitHub
- Created a machine learning system to classify social media and news content as fake or real using NLP techniques
- Implemented data preprocessing pipelines and TF-IDF feature extraction.
- Trained and evaluated supervised learning models such as Logistic Regression and Random Forest for misinformation classification
- Integrated the trained model into a backend application for real time content verification

CERTIFICATIONS

- Python Essentials 1 & 2 by Cisco Networking Academy
- JavaScript Essentials 1 & 2 by Cisco Networking Academy
- SQL Certification - HackerRank
- Python Certification - Edugene Technologies

ACHIEVEMENTS

TechX Club Member | CMR Institute of Technology

- Contributed to organizing workshops, hackathons, and coding competitions

Tech By Deepak Program Participant | Microsoft Office

- Gained exposure to AI agents, LinkedIn professional strategies, and real-time project development
