CHETLA ABHILASH
+91 8074714029 | chabhilash5@gmail.com | Portfolio

PROFESSIONAL SUMMARY

Technology Fresher with a strong foundation in Java, Python, SQL, and web application development. Hands-on experience in building data-driven and cloud-ready applications through academic projects, with exposure to Machine Learning, NLP, and AI concepts. Familiar with SaaS-based application development, backend systems using Django, database integration, and version control using Git. Quick learner with strong problem-solving skills, interested in software development, cloud application development, and AI/ML-driven solutions.

EDUCATION

Bachelor of Engineering (B.E) – Computer Science & Engineering (Artificial Intelligence and Machine Learning)
CMR Institute of Technology, Hyderabad
CGPA: 8.2 | 2021–2025

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Front-End Technologies:** HTML5, CSS3, JavaScript
- **Backend Development:** Django, Django ORM , REST API development
- **Databases:** MySQL
- **Cloud & SaaS Concepts:** Cloud application fundamentals, SaaS-based architecture concepts
- **Machine Learning & AI:** Supervised Learning, Unsupervised Learning, NLP, Data Preprocessing
- **Data & Libraries:** Pandas, NumPy, Scikit-learn, TF-IDF
- **Version Control & Tools:** Git, GitHub

PROJECTS

Hospital Management System| Python, MySQL

- Developed a scalable, database-driven backend application similar to SaaS-based systems for managing patients, appointments, and billing.
- Implemented backend logic using Python and SQL with strong data validation.
- Applied Object-Oriented Programming principles for modular and maintainable code.
- Implemented CRUD operations with role-based access control for secure data management.
- **Tools & Technologies:** Python, MySQL, SQL, OOP Concepts, Git, GitHub

AI-Driven Social Misinformation Detection System | Python, Machine Learning

- Developed a machine learning system to classify social media/news content as fake or real using NLP techniques.
- Cleaned and pre-processed textual datasets and applied TF-IDF vectorization for feature extraction.
- Trained and evaluated supervised learning models such as Logistic Regression and Random Forest for misinformation classification.
- Integrated the trained model into a backend application for real-time content verification.
- **Tools & Technologies:** Python, Pandas, NumPy, Scikit-learn, TF-IDF, Machine Learning, Git, GitHub

CERTIFICATIONS

- Earned Python Essentials 1 & 2 certification from Cisco Networking Academy.
- Completed certification in SQL from HackerRank.
- Received a certification in Python issued by Edugene Technologies.
- Earned JavaScript Essentials 1&2 certification from Cisco Networking Academy

ACHIEVEMENTS & PROACTIVE PARTICIPATIONS

- Visited Microsoft Office through the Tech By Deepak program, gaining exposure to AI agents, LinkedIn professional strategies, and real-time project development
- Active member of TechX Club at CMR Institute of Technology contributed to organizing workshops, hackathons, and coding competitions.
